

Feb 21, 2024

Since our first concert in the fall of 2012, Northside Stage has given the Wildwood Church family numerous opportunities for community outreach. We brought high quality concerts to Northeast Tallahassee, featuring over 100 local and regional musicians. We built friendships and had meaningful conversations. We walked alongside our music community through cancer diagnoses and death. And all along, we have prayed that these events and interactions would leave a lasting impression for the sake of Christ.

As much as we have enjoyed organizing and hosting Northside Stage concerts all these years, our worship arts team has determined that it is time to redirect our energy, attention, and resources. What remains in our designated fund will go toward one final concert as a part of Leon Anderson's album release tour in the fall/winter 2024!

We are so very thankful for your faithful support of this ministry, both with your finances and your time. You have made it possible to form relationships with artists, facilitate connections between artists and audiences, and maintain our reputation for excellence. It has been a worthy investment.

Please pray with us that seeds of Christ's love planted through Northside Stage would continue to grow. We want everything we do to bring others into saving contact with Jesus, the Hope of the world.

On behalf of the Worship Arts Team,

Sarah Roebur
